

Del Smith & Delbert Chipman
of American Fork ran sheep
west of present Deer Creek Reservoir.

They called their operation the Deer Creek
Land & Livestock Co.

Del Smith ran his sheep on
south slope (facing north) of Deer
Creek & on south to Hoover's Ranch & back
of Hoover's to Paul Stewart in north fork (to west)

Delbert Chipman ran his sheep
on north of Deer Creek north to -
canyon & to Cascade Springs.

They used to trail their sheep
up or down Provo Canyon.
Pictures were made of that trail
herd on Dead Man's hill -

Del Chipman contracted with Stan H. Roberts to
cut a road below Hoover's Ranch up to
the flat above (north & west of Hoover's).

He also contracted to cut a road along Elder
Creeper & up the first canyon on left going
from Deer Creek Dam north on the west.

2 Bureau men said ~~that~~ was trespassing
USA ground - Stan denied it - opened right of way.

May, 1986

Robert R. Green, M.D.

Heber City, UT 84032

Dear Doctor Green:

Bullhead City, Arizona - a place of almost perpetual sunshine and opportunity. Experience a country doctor's dream come true in the "Valley of the Colorado River." The welcome mat is out!

The community has 25,000 hardy residents and more are arriving by the hundreds. In 5 years, job opportunities are expected to triple and visitors will grow to 20 million or more a year. What's the attraction? Gambling, recreation and a relaxed lifestyle. It's authentic cowboy country where a friendly "howdy partner" type prevails.

Bullhead Community Hospital opened in 1984 and this accredited 36 bed acute care facility will soon double capacity. Doctors have the latest diagnostic and therapeutic equipment available for quality patient care from emergency room to major surgical suites.

For the venturesome energetic **General Surgeon**, the rewards will be great! Attractive office quarters are readily available for solo practices. If you are interested or know of a physician who would like to build a successful practice, please have them send a CV today.

It could turn out to be the best prescription you have ever written.

Sincerely,

Robert S. Enterline
Vice President
Search Division
